

PHILIPPINES SUPER TYPHOON MANGKHUT

Emergency Response

In the early morning of September 15, 2018, Typhoon Mangkhut made landfall in Baggao, Cagayan, with the equivalent of a Category 5 storm, causing widespread flooding and multiple landslides.

International Medical Corps supported more than 90,000 women, men, and children with access to healthcare, clean water, sanitation and hygiene care in Benguet Province.

We supported more than **80,000 people** with clean water access

We provided four health facilities with alternate power sources, reaching **65,000 community members**

We reached **4,051 community members** through hygiene promotion

We trained **777 people** in emergency response management and surged medical support, and **206 community health workers** to identify clean water sources

We supported vaccinations for **250 children** across Benguet province

With your support, we provided

90,422 PEOPLE

with access to relief and recovery services following Typhoon Mangkhut in the Philippines.

 More than **3,000,000 PEOPLE**

were affected by the storm

More than **1/3**

of those affected were displaced from their homes

An outbreak of nearly **35,000 CASES OF MEASLES**

followed Typhoon Mangkhut

 Nearly **210,000 HOMES**
 were damaged or destroyed
  

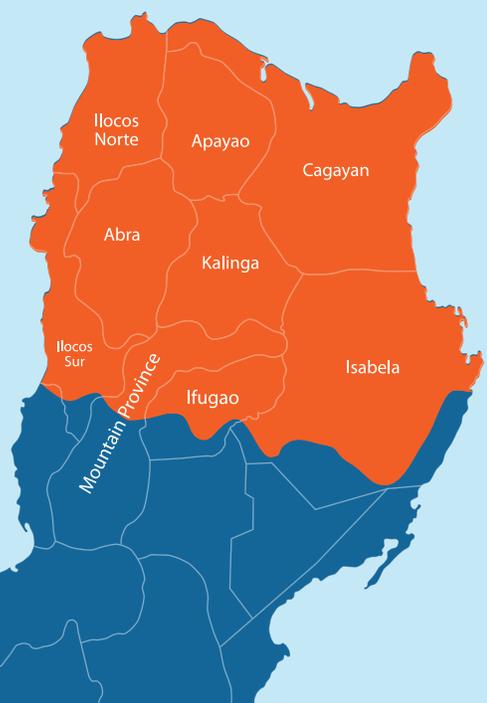

The storm caused **130 INJURIES & 70 FATALITIES**

AREAS AFFECTED BY TYPHOON MANGKHUT

 Benguet Province

“

Partners like the Philippine Red Cross, **International Medical Corps**, the International Organization for Migration, ReachHealth and AmeriCares have significantly contributed to the large number of children vaccinated, thanks to the recruitment of additional vaccinators and necessary supplies for health facilities.”

UNICEF & WHO
Philippines 2019

Following Typhoon Manghkut, there was a 1,000% increase in measles cases in Benguet Province alone, with 34,000+ cases across the Philippines. International Medical Corps partnered with the Department of Health to combat the outbreak. Together, we supported the provision of 1,825 measles and Japanese encephalitis vaccinations.

THANK YOU TO OUR SUPPORTERS

MOVING FORWARD

We continue to provide training for the people of the Philippines, helping them to become more resilient and self-reliant, and better prepared for any disasters that may come.
